НК	CUHK	The HATCH Talent Development Programme – Summer Microbiome Institute Date: 22 July – 02 August 2024 Time: 10:00 am – 05:00 pm Venue: Microbiota I-Center, Hong Kong Science Park Deadline: 06 May 2024 HATCH aims to bring health and hope to our future generation through research, education, and community outreach. During the Summer Microbiome Institute 2024, which is tailored for secondary students aged 15 or above, students would have the chance to explore the wealth of knowledge on the biotechnology of microbiome through hands-on experience in world-class laboratory at Science Park, mentorship, and interactive workshops with lead experts from clinical service, basic research, and community advocacies. Students interested in the field of innovative medicine, this would be an excellent opportunity for them to gain some first-hand experience before applying to any medical schools. For your kind reference, please see some general details of the summer institute as follows: https://www.hatchhk.org/summer-microbiome-institute	For Registration: <u>Click Here</u>

HKCUHKArchitecture Explorer ProgrammeFor more information: Click HereDate: 15 – 27 July 2024Architecture Explorer Programme (AEP) at The Chinese University of Hong Kong. AEP aims to enable secondary school students from Hong Kong, Mainland and abroad to understand first-hand the joys and challenges of studying architecture. It provides an opportunity for enrolled students to unleash their creative potential through art, design, and architecture. During the programme, students will learn to see the significance of architecture through lectures offered by professors from the School of Architecture and explore the fun of design making by transforming a concept into three-dimensional spaces. Students will also experience architecture through guided field trips to significant buildings and professional architectural offices. Over the course of the programme, enrolled students will be tutored to develop their individual design projects. Periodic "design reviews" are also scheduled for students to present the work and receive advice from faculty members and design professionals. The combination of studio learning, workshops, lectures and field trips presents a unique introduction to different aspects of architectural practice today. UK	University of Arts London	Central Saint Martins Summer Course – Creating a Project Portfolio Course start Date: 15 July (2 weeks) Location: 1/F, 180-182 Tai Po Road, Sham Shi Po This course is an opportunity for students who have an interest in studying art and design foundation courses, applying to BA degrees in Design practices (fashion/ product/ textiles/ costume/ graphics/ jewellery etc.) those interested in working in creative designers and those who would like just to like to know more about studying design. The course provides an insight into what studying at Central Saint Martins is like and provides information for students looking to study foundation courses or BA degree courses in London. The course is workshop based and encourages the development and exploration of ideas, drawing skills, research and experimentation with an open approach to what creative practice involves. Students will explore different aspects of the design process meaning successful students will leave with greater knowledge of both 2D (portfolio/ sketchbooks, layout, and presentation of 2D work) and 3D (textile sampling/ draping/ stand work, 3D manipulation, modelling) aspects of design- based practices. As this is a sketchbook course, you will work mainly physically (with pen and paper, scissors and glue, fabric and mannequin) and only certain aspects (e.g: illustration, photography) might be delivered in a digital way. Students will obtain a certificate of attendance awarded by CSM upon successful completion of the course.	For more information: <u>Click</u> <u>Here</u>

HK	CUHK	Courses 2024	Please refer to
			the <u>course</u>
		Date: 13 July – 15 Aug 2024	outline and
		Dute: 10 buly 10 1146 2021	homepage for
		Established by the Faculty of Science, CUHK in 2010,	more details.
		Science Academy for Young Talent is dedicated to	
		nurturing secondary school students who are talented in	
		science by providing different enrichment courses. This	
		summer, the Academy is planning to offer 24 science	
		courses.	
		- Category I-University Credit Bearing	
		(Students who complete the course and meet its	
		requirement can opt for credit exemption when they	
		study at CUHK)	
		- Category II-Academy Credit Bearing (Student can accumulate credits which will be regarded	
		as "Other Learning Experiences" when applying for	
		university)	
		- For Junior & Senior students.	
		The courses are designed for students ranging from	
		Year 8 – Year 13. Subjects include chemistry, life	
		sciences, physics, statistics, earth and environmental	
		sciences and STEM. These courses will be open for	
		application from <b>25 March to 20 May 2024</b> .	
		Students who complete the course may be invited to	
		join the activities organized by the Faculty of Science,	
		such as seminars and visits. In addition, they may enjoy an invitation for admission interview by their final year	
		of high school.	

НК	HKUST	Summer Institute 2024Application Period: 22 March to 1 May 2024Course Period: 06 – 10 Aug, 12 Aug 2024 (Make-up)Morning Session: 9:30 am-12:10 pm;Afternoon Session: 2:20 pm-5:00 pmFinal Assessment Day: 13 August 2024HKUST Summer Institute aims at providing anopportunity for high school students to experience	For More Information: <u>Click Here</u>
		Science & Technology (HKUST) and prepare them for future study. They are eager to extend this inspiring and enjoyable summer experience to high school students who are interested in experiencing life at HKUST. A wide range of credit-bearing courses are offered and delivered by the faculty members from the Schools of Business and Management, Engineering, Science, as well as Humanities and Social Science. In addition to learning new scopes of knowledge, students can broaden their perspectives, and develop their social and professional networks through our courses. Aspiring students are welcome to apply and the course credit(s) earned can be counted towards their undergraduate studies at HKUST in the future. <b>Who Should Attend</b> Students completing Year 10 to Year 11 or with equivalent qualifications by the time they attend the courses are invited to participate in the Summer Institute to discover their strengths and interests through interactive classes.

		Pre- College Program 2024	
US	University of Wisconsin - Madison	Date: July – August, 2024 Wisconsin – Madison offers an array of academic programs for students ages 7-18 — from advanced learning programs and STEM classes to music clinics and college readiness conferences.	For more information: <u>Click Here</u>
		<b>Badger Precollege</b> Date: July 21 – August 2, 2024 The courses includes Philosophy of Law, Veterinary and Animal Science, Election have consequences.	
		Accelerated Learning Program (ALP) Date: June 30 – July 20 2024 The courses will include Forensic Science, Environmental Studies.	
		<b>Summer Art Clinic</b> Date: June 30 – July 6 The courses include Flower Powe: Eco Fashion and Plant Dyes.	
		Students can enjoy the university's outstanding facilities, resources, faculty and staff — all while getting to know the UW–Madison campus, pursuing their passions and meeting new friends. Financial assistance is available for most programs	

		Poly U Summer Institute 2024	For more
НК	Poly U	Date: 21 July 2024 to July 27 2024	information: <u>Click Here</u>
		The one-week university credit-bearing course, Innovation and Entrepreneurship, is a compulsory element in all PolyU undergraduate programmes. The course offers participating students an excellent opportunity to experience PolyU's interactive teaching and learning and equip them with the essential aspects of innovation and entrepreneurship in a digital world. Upon successfully completing the course, students will be eligible to apply for credit transfer subsequent admission to PolyU.	
		PolyU's faculties and schools will organise day-long attachment programmes for students joining the residential camp to learn more about their desired programmes. Students will also get a taste of PolyU's signature service-learning programme to help the community in need. All participating students of the Summer Institute will be offered accommodation at the PolyU Student Hall, which enable them to enjoy the diversity and vitality of campus life and expand their social network through interaction with the PolyU community.	
		To encourage talented students to join the credit-bearing course, the Principal's Nomination Sponsorship will be granted to students nominated by their principals upon their successful completion of the course and meeting the course requirements. Furthermore, students currently receiving financial support from the HKSAR government only need to pay 1/3 of the programme fee.	
		Interested students are required to submit their applications online and upload the necessary documents before <b>31 May 2024</b> . Students who wish to be considered for the Principal Nomination Sponsorship will also need to submit a scanned copy of the completed Principal's nomination form. *( <i>Please contact careers office for this document</i> ).	
		All applications will be holistically reviewed after 31 March 2024. PolyU will make offers of admission via email from mid-April 2024.

НК	HKU Science	Science Summer Program 2024	For more
		Date: July 24-26, 2024 (Wed – Fri)	information: Click Here
		TouchStart Science Summer Programme, a fun-filled and hands-on opportunity at the Faculty of Science of The University of Hong Kong (HKU). The programme aims to inspire their scientific curiosity through captivating workshops and provide them with a glimpse into how science is reshaping our world.	<u>Chick Here</u>
		This year, HKU Science researchers will lead two interactive summer workshops on AI. In "The Mathematical Foundations Behind AI" workshop, the students will be exposed to some fundamental science behind artificial intelligence (AI), focusing on the essential mathematical concepts in areas like computation, optimisation, and probability. Meanwhile, "Generative AI: Applications and Implications" will introduce them to techniques for generating high-quality content (e.g., 2D images and 3D assets) and discuss the applications and implications of generative AI.	
		The programme also includes demonstrations, science talks, in-class activities, team-building games and an information session, all tailored to maximise the students learning experience at HKU. This is an excellent opportunity to expand students knowledge and explore the vibrant and diverse campus.	
		BCI Rising Juniors Application 2024	For more

US	Rice University	Pre-College Program The program is designed for high school students who wish to dive deeper into subjects that piques their interest, such as genome engineering, physiology, aerospace, law, and more. Each course features dynamic video lessons by renowned Rice faculty and access to mentors. Courses are available year-round, and the online format enables students to study anywhere, anytime, at their own pace. This flexibility allows students to take multiple courses and explore a variety of subjects. Upon successfully completing a course's capstone project,	For more information: <u>Click Here</u>
US	Virginia Tech College	Science Summer Camp 2024! Summer Science Camps with the Virginia Tech College of Science from June to July. Have fun and get a sneak peek at college life this summer!	For more information: <u>Click Here</u>
		Explore the world of science through action-packed, fun, thought-provoking summer camps in the College of Science at Virginia Tech. In the camps, students can DO science— carry out experiments, work with cutting- edge technology, and solve real-life problems. The talented professors and staff will inspire and prepare students for a great future in science!	

		International Summer School – Barcelona	
Germany	EU Business School	Date: July 7, July 21, Aug 4	For more information: <u>Click here</u>
		International Summer School gives students an introduction to business studies while allowing them to enjoy their summer break in Barcelona and make friends from all over the world.	
		The program takes place in July and August at EU Business School (EU) and is specifically designed for high school students aged 16 to 19 who are considering studying business for their bachelor's degree.	
		Students will learn base business skills and explore the latest trends. Thanks to EU's hands-on approach to business education, students will participate in interactive workshops, company visits, project work, case studies and much more.	
		<b>Certification</b> : EU Business School certificate of course completion	
		Summer Pre-College Programs	
US	University of Chicago	The University of Chicago's summer enrichment programs offer pre-college students the opportunity to explore different areas of study and learn about different disciplines, especially those that make the University a distinct destination for higher education. Each program will advance and enhance skills that students can apply to their studies in high school, college, and beyond. Whether it be leadership, civil discourse, or quantitative analysis of complex problems, all enrichment programs give pre-college students a window into the unique culture of inquiry and discourse and the dynamism of intellectual discovery at the University of Chicago.	For more information on enrichment program: <u>Click</u> <u>Here</u>
		<b>Pre-College Connect</b> <b>Date: July 15 – July 26</b> This summer, connect with UChicago both online and in-person! In Precollege Connect, students explore subjects like biology, psychology, and art through three- week intensive courses that start online, with real-time interaction with your UChicago instructor and fellow students, and culminate in a one-week capstone on- campus experience. Make the most of UChicago's online and in-person resources by combining virtual activities with in-person labs, museum trips, and more!	For more information on Pre-College Connect: <u>Click</u> <u>here</u>

		Summer 2024 Online Courses	
US	Cornell University	Date: June 3 – August 6, 2024	For more information:
05	Oniversity		<u>Click here</u>

		Supported Progression (SP) Programme	
UK	Durham University	This programme is open for 2024 applications from students living in the North East, North West and Yorkshire regions of England.	For more information on SP: <u>Click here</u>
		Supported Progression is a programme for Year 12 students. The aim is to help those with the potential to study with them to access help and support in their journey to university. SP students will try out different aspects of Durham life, developing their understanding of university to help them reach their personal and academic potential. By taking part in the SP programme, your students will work towards a <u>contextual offer</u> from Durham.	
		Space to Explore Potential (STEP) Deadline to apply: Friday, April 19, 2024 STEP offers a dedicated space for young Black- heritage students, to explore not only their own potential but all that Durham has to offer as a potential university destination. We welcome applications from Year 12 Black-heritage students, who attend UK State Schools.	For more information on STEP: <u>Click</u> <u>here</u>
		STEP consists of a summer residential, along with online information and guidance through Year 12 and 13.

		NASA Inspired Leadership Workshop	
US	Learn with Leaders	Date – 2 Dec 2023 Mode: Online	To know more - <u>Click here</u>
		Participants will learn Leadership skills and create a mind map through an innovative curriculum developed by workshop faculty - Dr. Edward Rogers (Ex-Chief Knowledge Officer at NASA and a leading thinker of our times).	To apply – <u>Click here</u>
		Dr. Edward Rogers has helped thousands of people learn to think more conceptually and improve their personal decision-making ability. For seventeen years he was the Chief Knowledge Officer at the NASA Goddard Space Flight Center near Washington, DC. He has taught a popular course on managing complexity at the Indian School of Business for over 12 years.	
		Dr. Rogers will illustrate leadership learnings from the NASA Apollo mission to the moon and the tragic loss of the Columbia space shuttle.	
		The workshop takes students on an <u>insightful journey</u> <u>into the workings of the human mind.</u> Students will uncover how the brain works, how to learn faster, and why we make poor decisions and often fail to learn from either successes or mistakes.

Hong Kong	Hong Kong University	HKU Summer Programmes 2024 (Mathematics) To promote students' interest and to broaden their horizons in mathematics, the Department of Mathematics of The University of Hong Kong (HKU) is organizing four summer programmes from June to August of 2023. We are going to offer two credit-bearing programmes: "University Mathematics I" and "Linear Algebra I"; and two non-credit- bearing programmes "MARTHA" and "Techniques of Counting". Instructed by university teachers, these programmes will provide secondary school students with an introduction to the theory and techniques in various fields of mathematics. Upon satisfactory completion of a credit- bearing programme, students would be awarded 6 credits. These credits would be counted towards the students' studies in the Faculty of Science at HKU (by applying for advanced standing). Reference letters from the Department of Mathematics of HKU are also available for students with satisfactory performance upon request.	For more information, please visit: <u>HKU Department of</u> <u>Mathematics</u>
